

# Strawberry Margarita Moisturizing Sorbet Recipe

Batch Size 1 kg

## Part A

83% Water – 830 grams

0.9% Amaze XT – 9 grams

## Part B

5.6% Glycerin – 56 grams

1.5% Aloe Vera Extract – 15 grams

1.5% Coconut Oil Fractionated – 15 grams

0.6% Panthenol Pro-Vitamin B5 – 6 grams

## Part C

5% Dry-Flo Pure AF – 50 grams

.2% Petal Pink Mica – 2 grams (or your favourite colour)

.5% Germall Plus Preservative – 5 grams

## Part D

.8% Polysorbate 20 – 8 grams

.4% Margarita Fragrance Oil – 4 grams

## Procedures:

-In a mixing vessel, add Water from Part A. Using an electric stick blender to provide constant agitation, slowly sprinkle in the Amaze XT, blending well until it is fully dispersed and a gel state has been reached.

-Add ingredients in Part B, one at a time and, with agitation, blend to fully combine.

-Add ingredients in Part C, one at a time and, with agitation, blend to fully combine.

-In a separate small container mix together Part D and then once fully combined, add to your gel mixture and stir to fully incorporate.

Spoon into Jars such as our 4 oz. Shallow Clear Polystyrene Jar.

## Blue Raspberry Exfoliating Cleansing Gel Recipe

1kg Batch Size

### Part A

75% Water – 750 grams

2% Glycerin – 20 grams

1.5% Amaze XT – 15 grams

### Part B

15% Steol CA-230 Surfactant – 150 grams

3% Amphosol CG Surfactant – 30 grams

1.5% Plantaren 2000 Surfactant – 15 grams

### Part C

1% Polysorbate 20 – 10 grams

0.5% Blue Raspberry Fragrance Oil – 5 grams

### Part D

.2% Tinosan Preservative - 2 grams

Approx 25 drops Pre-Diluted Fuschia Labcolor (or your favourite colour)

.3% Ocean Blue Jojoba Beads – 3 grams (more or less if desired)

### Procedures

-In a mixing vessel, add Water and Glycerin from Part A. Using an electric stick blender to provide constant agitation, slowly sprinkle in the Amaze XT, blending well until it is fully dispersed and a thick gel state has been reached.

-Using a whisk, add each of the surfactants in Part B, one at a time, stirring slowly to fully incorporate each addition.

-In a separate small container mix together Part C and then once fully combined, add to your gel mixture and stir to fully incorporate.

-One at a time, add each of the ingredients in Part D, mixing well to incorporate each addition.

-Package into bottles with pumps or disc tops.
